HEALTH WORKERS ON THE FRONT LINES OF THE GLOBAL COVID-19 RESPONSE

Briefing for Congress | Thursday, April 8, 2021 | 11:30 am – 12:30 pm

17,000 health workers have died from COVID-19 and many still lack adequate protection. 70% are women and many lack decent working conditions and experience harassment and violence.

These workers are essential to the global COVID response and recovery. Join us to learn more about what the US can do to strengthen health systems and get these workers the support they deserve.
